

# Sports Premium Grant Expenditure

## Report to governors: Planned spending for 2015/16

---

### Overview of the school 2015/16

<b>Total amount received:</b>	
Total number of pupils on roll	<b>250</b>
Total amount received	<b>£9,250</b>
Amount spent	<b>£12,675</b>

### PE and sport premium for primary schools

The government are spending over £450 million on improving physical education (PE) and sport in primary schools over the 3 academic years 2013 to 2014, 2014 to 2015 and 2015 to 2016. They will allocate this extra funding directly to primary Headteachers.

Schools can choose how they use the funding, for example to:

- hire specialist PE teachers or qualified sports coaches to work with primary teachers during PE lessons
- support and involve the least active children by running after-school sports clubs and holiday clubs
- provide resources and training courses in PE and sport for teachers
- run sport competitions or increase pupils' participation in the [School Games](#)
- run sports activities with other schools

### Accountability

Since September 2013, [Ofsted inspections](#) report on PE and sport provision and on how schools will spend their additional funding.

We also have to account how we have spent our PE and sports grant by publishing details on our website.

The Sports Premium allocation for the year 2015/16 was **£9250**.

Table below: Sandwell compared to the National averages (worse than the England average is highlighted in red):

Year (2014-15)	Sandwell	National
Recptn - overweight	11.1	12.8
Recptn - obese	11.0	9.1
Y6 - overweight	15.4	14.2
Y6 - obese	25.8	19.1

2014-15 town/ward level data:

In Tipton, obesity in Reception age children was 10.4% in 2014-15 (2nd lowest in the borough) however Year 6 children have the highest rates of obesity in the borough (26.1%)

In Princes End, obesity rate were between 10-11% for Reception age children and 26-28% for Year 6 age children, which highlights the issue with obesity in Year 6

In regards to excess weight (overweight and obesity combined) the levels of prevalence illustrates a similar pattern both at town and ward level

Table Below: The latest dataset 2015-16 Sandwell compared to the National averages, show a statistically significant increase in overweight and obesity in Reception year children (1.6 %+). In year 6 both overweight and obesity still remains high and worse than the national average.

Year (2015-16)	Sandwell	National
Recptn - overweight	11.8	12.8
Recptn - obese	12	9.3
Y6 - overweight	14.6	14.3
Y6 - obese	26.1	19.8

This allocation has been utilised in the following activities:

- Working alongside teachers to improve the delivery of PE across the school through use of curriculum specialist support in the following areas:  
 Extending Swimming opportunity in Yr3 & 5 (£2733)  
 Tennis coaching sessions (£324)  
 'Wake up Shake up' aerobic sessions (£1118)

This has enabled us to ensure that the delivery of PE lessons is consistently effective in all year groups.

### **Impact**

'Wake up, shake up'

**100%** of children have taken part in aerobic sessions on a weekly basis, positively impacting on pupils' ability to concentrate and attitudes to learning in class.

Swimming

**37%** of Yr4 children can swim 10 metres or more on front or back.

Tennis

**25%** of the academy has taken part in tennis coaching sessions at Tipton Sports Academy (LTA Centre of Excellence). 13% of the pupils have gone on to attend further coaching sessions at Tipton Sports Academy outside of the school day.

### **Overall cost £4,175**

- All lunch time supervisors to engage pupils in actively supporting lunchtime activities. This is achieved by providing West Bromwich Albion Lunchtime support to improve the structure and variety of practical lunch activities for pupils. Continual support and assistance is then provided for the lunch support staff in order to raise confidence. This has increased the amount of physical activity for all pupils during the day.

### **Impact**

**100%** of children have the opportunity to take part in organised competitive football at dinnertime.

### **Overall cost £4,872**

- The number of after academy clubs has now increased. This gives more pupils the opportunity to take part in physical sporting clubs each week. The clubs are subsidised by the academy to allow access of all children.

### **Impact**

**54%** of the academy has taken part in at least one after school sporting club, run by local sporting clubs, this year.

### **Overall cost £400**

- Cycling sessions including 'Bike ability' has been extended to Yr5 as well as the usual sessions with Yr6. This has meant that the very large majority of the academy can ride a bike competently and safely in a variety of different environments and are developing a wide range of bike handling skills.

### **Impact**

**50%** of the academy has taken part in and gained 'Bike ability' level 1 (Yr5) & level 2 (Yr6)

**Yr5 – 4 sessions at £269=£1,076 (Staff release)**  
**Yr6 – 8 sessions at £269=£2,152 (Staff release)**  
**Overall cost £3,228**

- Provide baseline fitness levels for all pupils in the academy, which is used to map fitness progress over the year. This will be provided through 'Fit for Sport' and the delivery of three fitness activities over three terms, which has provided data that shows individual, Class and Year Group data around fitness progress across the whole academy.

These five dimensions combined are providing a range of support mechanisms to broaden pupil engagement and develop academic achievement.

Future projects:

- To take part in more inter school competitions across Sandwell through the Wood Green Academy School Games Organiser. This will support the development of our pupils in engaging in sporting competitions outside of school.
-
